# WHAT IS IFMS?

IFMS is a Cabinet mandated modernisation programme to manage and execute back office processes in the national & provincial Public Service under the partnership of National Treasury(NT), Department Public Service and Administration)DPSA and the State Information Technology Agency(SITA) in the following domains:

Financial Management (FIN)

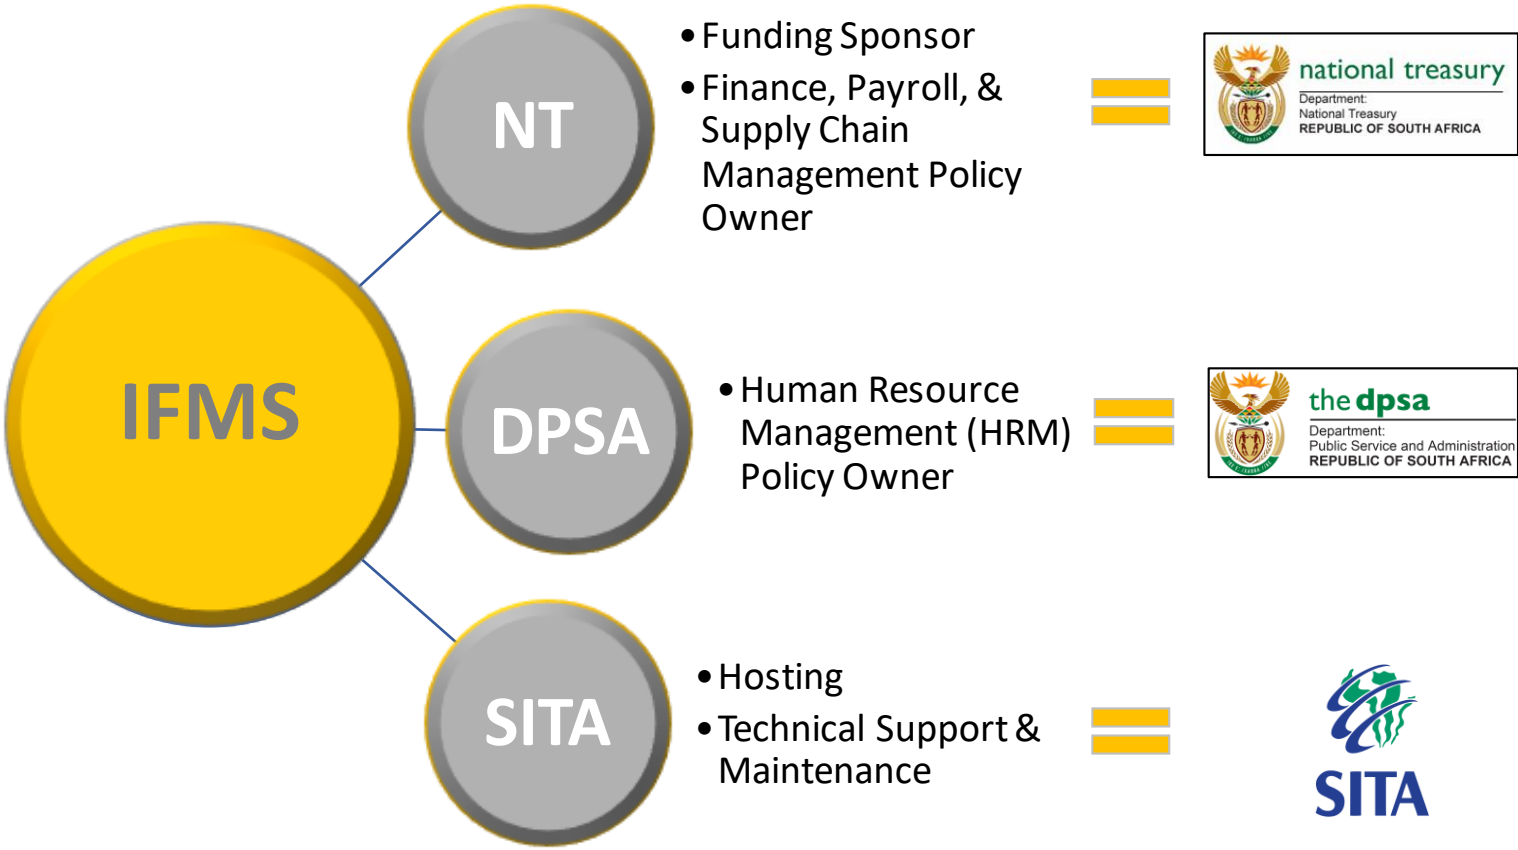

Human Capital Management (HCM)

Payroll Management (PAY)

Supply Chain Management (SCM)

Business Intelligence across all domains (BI)

# IFMS PARTNERSHIP

# WHY IFMS?

## Technology modernization

- To replace ageing technology
- To avoid increasing costs of maintaining obsolete legacy systems i.e. BAS, Logis, Persal, Persol, FMS, Polfin, Persap, and Vulindlela

## Business improvements

- To facilitate ongoing financial, supply chain and human resource management **improvements and reforms**
- To process and compile data in ways that **improve availability** of quality information for planning, reporting and better decision making in the management of public resources
